

PENSKE NEW ZEALAND

ABOUT PENSKE NEW ZEALAND

Penske New Zealand is a leading supplier of the world's finest heavy-duty trucks and diesel and gas engines.

Distributing the Western Star Trucks, MAN Truck & Bus, Dennis Eagle, *mtu*, Detroit, and DEUTZ brands, we operate across the most dynamic markets including on-highway and varied off-highway industries such as rail, energy solutions, mining, construction and industrial, marine, oil and gas, agriculture, defence, and on-highway. We also represent aftermarket products from leading oil, coolant, and filter brands.

With over 100 staff and strategically-located branches, we are committed to providing the most comprehensive 24/7 aftersales support. This is further backed through our network of authorised commercial vehicle service and parts dealers.

Penske New Zealand is a 100% subsidiary of Penske Automotive Group, a Fortune 500 company, which is listed on the New York Stock Exchange, and forms part of Penske Corporation.

The essential component to any business, MAN's flexibility is second to none. Able to adapt to the various applications required by customers from tippers and spreaders to long-haul transport, MAN's versatility drives the success of customers.

Our diverse truck portfolio is renowned for low whole of life costs, cabins that provide a quiet and ergonomic environment, and German engineering that maximises safety and efficiency.

MAN's bus range redefines efficiency, safety, and comfort and caters for a wide range of customer applications from heavy-duty, long distance transportation solutions to city bus, coach, and school buses.

Dennis Eagle is a market leader in refuse collection vehicles offering among the greatest visibility in its class, and specifically designed to meet the wide range of applications which comprise this rapidly expanding market.

Key characteristics of the Dennis Eagle range include the integration of excellent safety features such as one-step entry and exit cab, tall and wide door openings, true flat floors, large glass areas for maximum visibility in addition to well-positioned grab handles and a high visibility mirror package.

Penske distributes heavy-duty trucks from MAN Truck & Bus, Western Star Trucks, and Dennis Eagle through an extensive network of sales, service, and parts dealers throughout New Zealand.

Western Star Trucks is a premier producer of hand-crafted heavy-duty trucks, engineered for the toughest vocations. Built by hand for the ultimate attention to detail, Western Star trucks are designed tough to transport heavy-duty loads over long distances.

Unrivalled on durability and with superior cabin space, outstanding driver comfort, and low whole-life costs, Western Star trucks are perfectly suited to our unique conditions and delivers customers a great return on investment.

With a history dating back over 250 years and a world-class pedigree, **MAN Truck & Bus** produces some of the world's finest trucks and buses.

Penske New Zealand is a leading distributor of the world's finest diesel engines, gas engines, and power systems. We operate and support customers in the rail, energy solutions, mining, construction and industrial, agriculture, marine, oil and gas, and defence markets. In addition to representing some of the most innovative and well-respected brands in the industry, we also provide aftermarket products from leading oil, coolant and filter brands.

With **Detroit**, customers can count on a proven track record in the design and manufacture of heavy-duty diesel engines. Available in a wide variety of horsepower and torque configurations, Detroit engines offer customers a superior level of reliability and performance. Backed by our extensive national service network and our factory-trained technicians, Detroit ensures the highest level of support for our customers.

Rolls-Royce Power Systems' **mtu** brand is one of the world's leading manufacturers of large diesel engines, gas engines, and complete propulsion systems offering powerful, reliable, and cost-effective solutions for a range of industries, including rail, energy solutions, mining, construction and industrial, rail, oil and gas, agriculture, and defence. With both diesel and gas engines, as well as microgrid and alternative fuel solutions, *mtu's* advanced systems are used in a range of applications from hospitals, data centres and commercial buildings, to mine sites and remote islands.

A leading global manufacturer of innovative drive systems, **DEUTZ** develops and produces diesel, gas, and electric drivetrains for professional applications. Offering a broad product range with engine capacities up to 620 kW, DEUTZ's portfolio is used in construction equipment, agricultural machinery, material handling equipment, stationary equipment, commercial vehicles, rail vehicles, and other applications.

AFTERSALES

Penske offers a comprehensive range of aftermarket products to support customers. From specialised oil and coolant formulae designed specifically for your engine, to the highest quality genuine parts, we ensure our customers' assets receive the best of care.

With a network of strategically-situated branches, field service vehicles, and 24/7 aftersales support, we are able to partner with our customers by providing professional, customer-specific maintenance solutions.

DISTRIBUTION

Each of our locations comprise distribution facilities providing aftersales support for Penske New Zealand's operations, servicing our portfolio of brands including Western Star Trucks, MAN Truck & Bus, Dennis Eagle, *mtu*, Detroit, and DEUTZ.

Our New Zealand operations are further supported by the Penske Distribution Centre located in Brisbane, QLD, which comprises a floor space of 20,000 square metres.
